Profile

I'm an aspiring full stack developer with real project experience in building a course-based web app using HTML, CSS, JavaScript, Bootstrap, JSP, and Servlets. Right now, I'm learning React and working on a new project to improve my frontend skills. I've solved 250+ problems on LeetCode, which has helped me get strong in DSA and logic building. I enjoy creating clean and useful interfaces, and I'm also exploring the Spring Framework to grow as a full stack developer.

Education

11/2022 – 06/2026 Jabalpur	**Bachelor of Technology (CSE) (Current CGPA: 7.55/10)** *Baderia Global Institute of Engineering and Management Affiliated to RGPV, Bhopal*

Frontend Development	**Backend Development**
HTML, CSS, Javascript, Bootstrap, React	Java Enterprise Edition, Spring(basics), Tomcat
DBMS	**Core Skills**
MySQL, Hibernate	Java, Javascript, DSA, OOP

Projects

Learnify – E-Learning Platform ↗
Full-stack course platform with user progress tracking and note-taking
- **Tech Stack:** HTML, CSS, JavaScript, Bootstrap (Frontend), JSP, Servlets, MySQL (Backend)
- Users can register, buy courses, track their learning progress, and save personal notes for revision.
- The platform supports smooth course enrollment and dynamic content delivery for a better learning experience.

DoFocus – Self Progress Monitoring Tool ↗
Daily challenge tracker with to-do list and personal notes
- **Tech Stack:** React, Bootstrap (Frontend), JSP, Servlets, Hibernate (Backend), MySQL (Database)
- Users can create daily goals, take challenges, and manage to-do lists along with personal notes.
- The app helps users monitor their progress and stay organized in their self-improvement journey.

Personal Portfolio Website ↗
Responsive portfolio to showcase skills, projects, and achievements
- **Tech Stack:** HTML, CSS, JavaScript
- Created a personal website to showcase my skills, projects, and achievements in one place.
- Designed it to be responsive with smooth navigation and a clean, user-friendly layout.

Achievements

- 250+ problem solved on LeetCode
- Smart India Hackathon - College Level Recognition
